

WHAT DO INSTRUCTORS SAY?

96%

96% are likely to use Contraseña again

So far, there is nothing like Contraseña in the market. We love the product, no doubt.

– Roberto Jimenez, **University of South Florida**

I think the program is working quite well thus far and the students have been much more successful with their acquisition of the language compared to other platforms.

– Timothy Ashe Jr, **University of Louisville**

We are very happy with the program and we do not see that there is a better text/company available.

– Christine Stanely, **Roanoke College**

I don't see us going anywhere for a long long time :)

– Cyrstal Marull, **University of Florida**

90+%

90+% of respondents feel that Contraseña is delivering on the reasons it was selected

Contraseña really gives the students a frame through which to view new concepts. It also breaks down grammar use into real-life situations better than any textbook I have seen.

– Julie Nelson, **Auburn University**

Students are producing more oral language than before and in a more confident way.

– Sofia Kearns, **Furman University**

I couldn't be happier with Contraseña. We just completed a project with an interview of an advanced speaker and other language programs have come to me completely wowed by the fact that beginners are doing this so successfully.

– Stefan DuBois, **University of Denver**

It is so complete! Also, the staff is the best! Every time I had to reach out with a question, they answered so quickly.

– Rebecca Carrero, **LSU**
